

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-20 (Canceled)

Claim 21 (Currently Amended): A fabric structure for making bags comprising:

- a. a fabric base sheet having a front surface adapted to be disposed on the outside of a bag and a back surface;
- b. a polymeric backing layer containing styrenic block copolymers, said polymeric backing layer having a front bonding surface bonded to the back surface of the fabric base sheet and a ~~back~~ back surface; and
- c. a protective layer made by coating a surface treating agent onto the polymeric backing layer, said protective layer having an inner surface bonded to the back surface of the polymeric backing layer and an outer surface ~~adapted to be disposed on the inside of a bag;~~
- d. wherein the surface treating agent contains a modified styrenic block copolymer material,

silicone, isophthalic acid, tetraisopropyl titanate, and toluene.

Claim 22 (Previously Presented): The fabric structure according to claim 21 further comprising a viscous layer sandwiched between the fabric base sheet and the polymeric backing layer.

Claim 23 (Previously Presented): The fabric structure according to claim 22 wherein the viscous layer is made of viscous material containing styrenic block copolymer, viscosity improver, additive, and processing oil or butanone.

Claim 24 (Previously Presented): The fabric structure according to claim 21 wherein the styrenic block copolymer of the polymeric backing layer is selected from the group consisting of styrene-butadiene-styrene block copolymers, styrene-ethylene-butylene-styrene block copolymers, styrene-isoprene-styrene block copolymers, styrene-ethylene-propylene-styrene block copolymers, and mixtures thereof.

Claim 25 (Previously Presented): The fabric structure as claimed in claim 21 wherein the surface treatment agent contains urethane polymer material.

Claim 26 (Previously Presented): The fabric structure according to claim 25 wherein a pigment is added to the urethane polymer material.

Claim 27 (Previously Presented): The fabric structure according to claim 21 wherein a pigment is added to the styrenic block copolymer surface treating agent.

Claims 28-34 (Canceled)

Claim 35 (New): A fabric structure for making bags comprising:

- a. A fabric base having a front surface and a back surface;
- b. A polymeric backing layer containing styrenic block copolymers, said polymeric backing layer having a front bonding surface bonded to the back surface of the fabric base sheet and a back surface; and
- c. A protective layer made by coating a surface treating agent onto the polymeric backing layer, said protective layer having an inner surface bonded to the back surface of the polymeric backing layer and an outer surface, the surface treating agent containing styrenic block copolymer material, wax and toluene;
- d. A viscous layer sandwiched between the fabric base sheet and the polymeric backing layer, the viscous layer being made of viscous material containing

Appln. No. 09/986,336  
Amd. dated November 12, 2003  
Reply to Office Action of September 24, 2003

styrenic block copolymer, viscosity improver,  
additives and processing oil or butanone.
